ADDITIONAL CHARGES

1. Service for lighting will be made available from existing underground transformers except that if the length of trenching required to provide underground lighting exceeds 100 feet per light, a contribution-in-aid of construction will be required for the excess footage (\$1.50 per foot.) Where paving or other obstructions exist, the consumer will be required to perform all trenching and/or boring, install duct (furnished by the Cooperative), backfill, and restore paving to the mutual satisfaction of all parties concerned. (The Cooperative may perform the necessary trenching/ boring, install the duct, backfill and restore paving upon payment by consumer, in advance, of the estimated cost of such work).
2. The above monthly rates will apply only to fixtures and poles designated as standard equipment by the Cooperative. Contributions-in-aid of construction will be charged to cover the cost difference of other than standard fixtures and poles, provided the Cooperative agrees to install such equipment. However, at its option, the Cooperative, both in lieu of or in combination with any contribution, may develop and offer a monthly rate for such non-standard pole and/or fixture. In addition, where custom lighting packages are requested, the Cooperative may, at its option, provide such packages under a special contract under which the monthly rates, in stallation charges, etc. will be determined and included in such contract.
